The promise and the proof

What does a dream owe the people who inherit it? Enigmatic explores the distance between seeing a need and accepting responsibility for a response that is fair, safe, financed and capable of lasting. It introduces Norisha’s philosophy through Kenya’s history, human dignity and the institutional choices needed to turn ambition into trustworthy practice.

The book explores histories and responsibility, governance, programme design, information, money, professional capability and implementation. Its intended readers are people who want to examine the reasoning behind a social institution: what it intends to do, what it can demonstrate and what must still be earned through delivery.

From the opening chapter

“A promise can be spoken in a moment. An institution must learn how to keep it when the moment has passed.”

The cover places the Norisha bird across both covers, with artistic historical portraits and Jowi the bull. Peace, love, happiness, hope, unity, dignity and joy frame the ambition. The themes connect human dignity with institutional responsibility.
